REPORT THAT THE ACERINOX, S.A. ADMINISTRATORS FORMULATE ON THE PROPOSAL OF DELEGATION TO THE BOARD OF DIRECTORS ON THE FACULTY TO ISSUE SIMPLE AND/OR CONVERTIBLE AND/OR EXCHANGEABLE OBLIGATIONS INCLUDED IN THE TEENTH POINT ON THE AGENDA OF THE GENERAL SHAREHOLDERS' MEETING TO BE HELD ON 22 APRIL AT FIRST CALL

I. PRECEDENTS

This Report is formulated to justify the proposed agreement whereby, under the provisions of the general scheme on the issuance of obligations (Articles 401 and following of the Corporation Law hereinafter LSC, and 310 and beyond of the Regulations of the Commercial Registry), the precise powers to issue:

- a) Bonds or simple bonds
- b) any securities representative of a debt to the company, either on Spanish territory or in foreign territory.
- c) obligations
- d) obligations convertible in shares.

In the current situation of financial markets, the Board of Directors should have the greatest facilities to go to credit, banking or not, through the widest range of systems and having a wide flexibility and capacity of response therefore, the proposal for a delegation to the Board should not be confined to the assumption referred to in the preceding paragraph but should also cover the possibility of issuing securities representing a loan, or even simple obligations or, where appropriate, obligations that entitle the subscription of shares of the Company under the conditions predetermined by the General Shareholders' Meeting.

In the same way, in order to facilitate the issuance of securities and the fund-raising, the authorization also includes the possibility that it is the Company, the parent of a Group, that issues the arising values or that it is a subsidiary of the same, with or without guarantee of the Group's parent company, in whole or in part, in such a case, complying with the legal requirements applicable in the respective territory, with the particularity, in this case, that the conversion affects only the titles of the issuing company of the same.

II. JUSTIFICATION FOR THIS PROPOSAL

Since the next year expires the five-year period by which the General Shareholders' Meeting held on 9 June 2016, granted the Board of Directors of Acerinox, S.A., the power to issue bonds, bonds, convertible obligations or other fixed income securities in any market, the Board of Directors considers it appropriate to submit to the General Shareholders' Meeting its renewal in order to have the aforementioned powers, to go to the capital market and obtain financing by issuing fixed income securities in the most agile and effective as possible, to the extent that this captation resources formula is deemed appropriate, weighing market circumstances, the Company's strategic objectives and its financing needs. In this context, it is considered appropriate

that the Board of Directors should have the capacity to take the decisions it deems most suitable for the social interest, as well as to implement them flexibly and adapt to the requirements deadlines imposed by financial markets.

The proposal gives the Board of Directors the power to issue fixed income securities, whether simple and convertible and/or exchangeable, which may entitle the subscription or acquisition of shares of the Company, either to issue or in circulation.

The agreement submitted to the General Shareholders' Meeting establishes the quantitative and maximum set limit on the issuance of any securities under the authorization of the General Meeting, amounting to THREE MILLION (3,000,000,000) euros.

The time limit during which the Board of Directors may make use, on one or more times, of the authorisation is five years.

In addition, the agreement submitted to the General Shareholders' Meeting for approval delegates to the Board of Directors itself, in the event that the Latter agrees to make use of the authorization of the General Meeting, the development and concreteness of those bases and the modalities for each issuance.

On the other hand, the proposed agreement also provides, in the event that the issue concerns convertible obligations on new issuance shares, the authorisation to the Board of Directors to agree to the exclusion of the right to preferred subscription of shareholders and holders of other convertible obligations previously issued, where this is necessary or appropriate for the collection of financial resources on national and international markets or is required by the social interest.

The exclusion, in whole or in part, of the preferential subscription right is defined as a power that the General Meeting confers on the Board of Directors under Article 511.1 of the LSC and, therefore, its exercise will depend on the the Board of Directors itself adopts on the concurrent circumstances in each case and with respect for the legal requirements. The reasons which this Board of Directors believe that the request for delegation to the General Meeting already provide for the possibility of excluding the right of preferential subscription in the issuance of convertible bonds are based on the desire of the Company of being able to go to as large a universe as possible, from possible external sources of funding.

If, in the use of those powers, the Board of Directors decides to abolish the preferential right in relation to a specific capital increase, it shall, at the time agree to the increase issue, a detailed report of the reasons which, in support of the social interest justify the adoption of such a measure; this report shall be supplemented by another to be performed by an auditor of accounts in the terms provided for in Article 417 of the LSC. Under the abovementioned provision and Article 511.2 of the LSC, both reports shall be made available to shareholders and communicated to the first General Meeting to be held following the extension agreement.
